NAMD, recipient of a 2002 Gordon Bell Award and a 2012 Sidney Fernbach Award, is a parallel molecular dynamics code designed for high-performance simulation of large biomolecular systems. Based on Charm++ parallel objects, NAMD scales to hundreds of cores for typical simulations and beyond 500,000 cores for the largest simulations. NAMD uses the popular molecular graphics program VMD for ...

## **NAMD - Scalable Molecular Dynamics**

Mathematical and theoretical biology is a branch of biology which employs theoretical analysis, mathematical models and abstractions of the living organisms to investigate the principles that govern the structure, development and behavior of the systems, as opposed to experimental biology which deals with the conduction of experiments to prove and validate the scientific theories.

## **Mathematical and theoretical biology - Wikipedia**

Systems biology is the computational and mathematical modeling of complex biological systems. It is a biology-based interdisciplinary field of study that focuses on complex interactions within biological systems,

using a holistic approach (holism instead of the more traditional reductionism) to biological research.. Particularly from year 2000 onwards, the concept has been used widely in ...

Cell Biology (CB), a journal of experimental cell investigation, publishes reviews, original articles and short communications on the structure, function and macromolecular organization of cells and cell components. Contributions focusing on cellular dynamics, motility and differentiation, particularly if related to cellular biochemistry, molecular biology, immunology, neurobiology, and ...

x This phase II study tested the hypothesis that the dose of consolidation RT can be reduced from 30 Gy to 20 Gy in diffuse large B-cell lymphoma. All patients (n=62) were in a complete metabolic response by PET-CT after chemo-immunotherapy. Bulky disease was present in 40%. Five-year local control using 20 Gy was 98%.

My current research revolves around two aspects of the scholarship of teaching and learning, those of Science Education and Science Communication. In the former, I have developed novel teaching methods and technologies that have been shown to improve the learning environment, knowledge transfer and application for undergraduate students of Biology.

Delivery Method . Online: Course is accessed and coursework is submitted in our online learning platform  
Print-based: Course is accessed from a pdf course guide and coursework is submitted electronically or by mail  
Online (65) Print-based (8)

### **Course Catalog | Independent Learning**

AbstractThe review deals with drop impacts on thin liquid layers and dry surfaces. The impacts resulting in crown formation are referred to as splashing. Crowns and their propagation are discussed in detail, as well as some additional kindred, albeit nonsplashing, phenomena like drop spreading and deposition, receding (recoil), jetting, fingering, and rebound.
