IMAGE: Victoria Henshawâ€™s Sheffield smell walk, mapped. Regular Edible Geography readers will know that smellscapes are a recurring subplot of this blog â€” a diversion that I justify on the basis that roughly ninety percent of what we perceive as taste is actually smell. For the most part, the built environment consists of accidental and overlooked odours â€” an unintentional backdrop of ...

Development geography is a branch of geography which refers to the standard of living and its quality of life of its human inhabitants. In this context, development is a process of change that affects people's lives. It may involve an improvement in the quality of life as perceived by the people undergoing change. However, development is not always a positive process.

Video game development is the process of creating a video game. The effort is undertaken by a game developer, who may range from a single person to an international team dispersed across the globe. Traditional commercial PC and console games are normally funded by a publisher, and can take several years to reach completion. Indie games can take less time and can be produced at a lower cost by ...
