Singular they is the use in English of the pronoun they or its inflected or derivative forms, them, their, theirs, and themselves (or themselves), as an epicene (gender-neutral) singular pronoun. It typically occurs with an unspecified antecedent, as in sentences such as: "Somebody left their umbrella in the office. Would they please collect it?" "The patient should be told at the outset how ...

There are two competing notions of the predicate, generating confusion concerning the use of the term predicate in general. The first concerns traditional grammar, which tends to view a predicate as one of two main parts of a sentence, the other part being the subject. The purpose of the predicate is to complete an idea about the subject, such as what it does or what it is like.

At the height of the Communicative Approach to language learning in the 1980s and early 1990s it became fashionable in some quarters to deride so-called "old-fashioned" methods and, in particular, something broadly labelled "Grammar Translation". There were numerous reasons for this but principally it was felt that translation itself was an academic exercise rather than one which would ...
