Fonts are the style of "type face" used to display text, numbers, characters and other "glyphs" as they are often called in the typography industry.

WebAIM: Fonts - WebAIM: Web Accessibility In Mind
In typography, the point is the smallest unit of measure.It is used for measuring font size, leading, and other items on a printed page.The size of the point has varied throughout the history of printing. Since the 18th century, the point's size has varied from 0.18 to 0.4 millimeters.Following the advent of desktop publishing in the 1980s and 1990s, digital printing has largely supplanted the ...

The asterisk derives from the two thousand year old character used by Aristarchus of Samothrace called the asteriskos, â€», which he used when proofreading Homeric poetry to mark lines that were duplicated. Origen is known to have also used the asteriskos to mark missing Hebrew lines from his Hexapla. The asterisk evolved in shape over time, but its meaning as a symbol used to correct defects ...

D id you know that Web Designers have many dreams? We dream about the end of browser wars, death of IE6, we hope to see the end of raster wars and plead our case to powerful authorities to release more fonts into the public domain or at least distribute new Vista typefaces for other platforms. While we all wait for the

world (or at least the World of Wide Web) to become more beautiful and ...
