Yunus A Cengel Heat and Mass Transfer- Review and PDF

Introduction to Heat & Mass Transfer This section will cover the following concepts: • A rudimentary introduction to mass transfer. • Mass transfer from a molecular point of view. ... Describes, in its basic form, the rate at which two gas species diffuse through each other.

4. Introduction to Heat & Mass Transfer

Heat transfer processes are classified into three types. The first is conduction, which is defined as transfer of heat occurring through intervening matter without bulk motion of the matter. Figure 1.1 shows the process pictorially. A solid (a block of metal, say) has one surface at a high temperature and one at a lower temperature.
