Neomercantilism. Neomercantilism is a policy regime that encourages exports, discourages imports, controls capital movement, and centralizes currency decisions in the hands of a central government. The objective of neo-mercantilist policies is to increase the level of foreign reserves held by the government, allowing more effective monetary...

Neomercantilism - Wikipedia

Finally, many in the Washington trade and foreign policy establishment will assert that any efforts to roll Chinese mercantilism will lead to a destructive trade war . But the trade war is already more than a decade old, and China has fired virtually all of the shots and done almost all of the damage.
