Provide Americans with access to nutritious food. Utilize data-driven strategies to improve program integrity. Maintain a high-performing workforce by improving performance and increasing accountability.

Food and Nutrition Service

Nutrition is the science that interprets the interaction of nutrients and other substances in food in relation to maintenance, growth, reproduction, health and disease of an organism. It includes food intake, absorption, assimilation, biosynthesis, catabolism, and excretion. The diet of an organism is what it eats, which is largely determined by the availability and palatability of foods.
