NuSTAR observatory science operations: on-orbit

The European Southern Observatory has recently merged the operations of its three Chilean sites, La Silla, Paranal/VLT, and Chajnantor APEX, into one observatory, the La Silla Paranal Observatory.

La Silla Paranal Observatory operations - researchgate.net

The HARPS spectrograph, after its first six years of operations has established itself as the worldwide reference for accurate Doppler measurements. The radial velocity precision of the instrument on a single measurement is estimated around 60 cm/sec.

Datamanagement at the European Southern Observatory

There are many ways to solve the challenging problem of making a high performance robotic observatory from scratch. The Observatorio Astrofísico de Javalambre (OAJ) is a new astronomical facility located in the Sierra de Javalambre (Teruel, Spain) whose primary role will be to conduct all-sky astronomical surveys.

Goals and strategies in the global control design of the

Las Cumbres Observatory (LCO) is a network of astronomical observatories run by a non-profit private operating foundation directed by the technologist Wayne Rosing. Its offices are in Goleta, California. The telescopes are located at both northern and southern hemisphere sites distributed in longitude around the Earth.
