propaganda used to attract women into the labor force during the war, have led many to credit World War II with spurring the modern increase in married women's paid employment. This paper uses information from two retrospective surveys, one in 1944 and another in 1951, to resolve the role of World War II in the rise of women's paid work.

possible for most Americans. Thus, the World War II era saw increasing tension between women's traditional roles of wife and mother and their growing roles in the world outside the home. Official policy and propaganda reflected efforts to resolve the conflicting goals of recruiting women to the war effort and preserving women's pri-

World War II, Women, U.S. Military Service INTRODUCTION With World War II came a greater threat to the nation's industrial and military man-power than the United States had ever experienced. The American war effort demanded increased production of war materials as well as the mobilization of millions of men into the armed forces.
