possible worlds and to the laws and facts that describe them: 1.This first section has presented the one-to-one mapping between possible worlds and sets of laws and facts. That mapping preserves all the axioms and theorems of Kripke semantics, and it makes the laws that determine modality accessible to critical analysis.

some like to think, we have no choice but to be confined within a series of universes with increasing magnitude and intricacy â€“ a different version of the multiverse that has already its own niche in modern cosmology. The infinite hierarchy of worlds within worlds may not soon become the dominant theory in astronomy.
